**Column Sentry® CS4442-30R** column protector is the largest of the Column Sentry column protectors. It is designed to fit round columns up to 30" (770mm) in diameter. The outside diameter is 44" (1118mm).

### Packaging & Shipping

#### LTL or Truckload

Small (14" outside diameter) Column Sentry products in quantities lower than 4-6 units typically ship most effectively by UPS. A single Medium Column Sentry can be shipped by UPS. Larger quantities of these sizes, or any quantity of Large or Extra Large Column Sentry products (33" and 38" outside diameters) ship via LTL or truckload deliveries. Column Sentry Small and Medium sized products ship at Freight Class 150; Large and Extra Large ships at Freight Class 250. Column Sentry protection products are stacked and stretch-wrapped to save weight and reduce unnecessary packaging costs. Call us for a specific quote.

#### Parcel via Fedex or UPS

Column Sentry Small (14" outside diameter) can be shipped in the US via Fedex/UPS. Medium sized Column Sentry can be shipped via Fedex/UPS but oversize fees and dimensional weight means costs are equivalent to LTL. One product can be shipped via Fedex/UPS but more than one is not recommended. When shipping a Medium Column Sentry a carton fee applies.
