INNOPLAST

ABOUT US

Located in Garfield Heights, OH, Innoplast was founded in 2005. Innoplast is a manufacturer and value-added distributor of pedestrian and traffic safety solutions. ScaleCo acquired Innoplast in April 2021, which is comprised of three brands: Innoplast, American Sign Products, and its associated brand, American Reflective Products, and Thermoprene.

Acquired by Innoplast in 2024, Shur-Tite, which specializes in designing, manufacturing, and distributing highway safety, pedestrian safety, and traffic safety products, has a rich history of partnering with all constituents involved in state and municipal roadway safety, consistently delivering best-in-class products and customer service. Based in Gainesville, TX, Shur-Tite offers a broad portfolio of high-performance safety solutions to customers across the United States and five countries worldwide.

About Innoplast

Founded in 2005 and located in Garfield Heights, OH, Innoplast Holdings is a leading manufacturer and value-added distributor of pedestrian and traffic safety solutions. BollardGard®, a plastic bollard cover, is one of Innoplast's most innovative products. Additional offerings include specialty vinyl, adhesives, and conspicuity & reflective tapes used by signage, vehicle, and safety manufacturers.

BollardGard® Bollard Covers

Protect and improve the safety of your facility while enhancing the look with BollardGard HDPE bollard covers. Never paint over old, rusty bollards again. Bollard covers reduce maintenance costs and eliminate the need for scraping and painting unsightly steel bollards. Innoplast covers are UV stable and guaranteed against cracking and fading for 5 years. With eight stock colors and eight reflective tape options, Innoplast offers hundreds of color combinations for your facility or brand needs. BollardGard bollard covers are commonly seen at gas stations, car washes, loading docks, convenience storefronts, parking garages, airports, and other high traffic areas.

Cover available in: Black, Charcoal Granite, Tan Granite

Rubber Parking Blocks

- 6’ rubber parking block
- Honeycombed bottom that easily conforms to uneven asphalt or concrete surfaces
- Can easily be handled by hand, rather than machine
- Pre-drilled holes for simple installation
- Molded reflective stripes for increased visibility
- Ideal alternative to concrete

Lower Parking Lot Maintenance Costs with Innoplast Parking Blocks

Parking blocks are used to let drivers know they cannot pull any further into a parking space. This helps reduce damage to curbs and other vehicles in the parking lot. Our parking blocks are available in plastic or rubber in a variety of colors and lengths.

Plastic Parking Blocks

- Superior strength & durability at 20% the weight of conventional concrete blocks
- Chemical & weather resistant
- Made with low density polyethylene, 100%v recycled plastic
- Pre-drilled holes for easy installation
- 5 stock color options
- Installation hardware included
- Multiple size options available

Available in: Blue, Charcoal Gray, Gray, White, Yellow

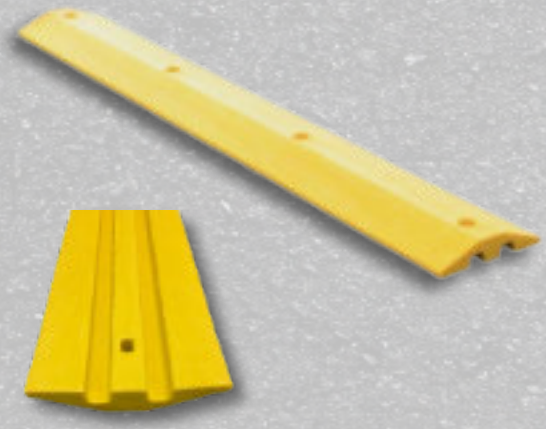

Rubber Speed Bumps

- 6’ rubber parking block
- Reduces speed of traffic on your property while improving safety for pedestrians & other motorists
- Conforms to uneven asphalt or concrete surfaces
- Two 1” channels for cable/hose protection
- Pre-drilled holes for easy installation
- Molded reflective stripe for increased visibility
- Reflective cat-eyes for night time visibility

Plastic Speed Bumps

- 4’ to 12’ lengths available
- Reduces speed of traffic on your property while improving safety for pedestrians & other motorists
- Chemical & weather resistant
- Made with low density polyethylene, 100% recycled plastic
- Two 1” channels for cable/hose protection
- Pre-drilled holes for easy installation
- Installation hardware included

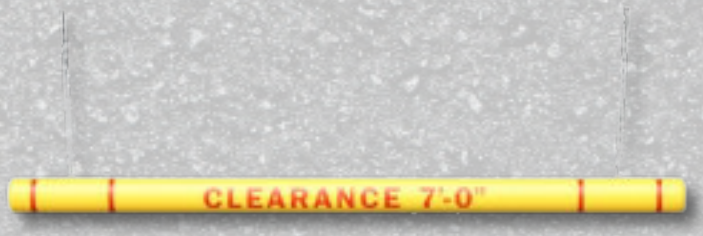

Rubber Speed Humps

- Reduce the speed of traffic in high traffic or industrial areas
- Flexible design conforms to road surface
- 20-ton capacity for heavy trucks & emergency vehicles
- Easy to install & remove for snow removal, paving, seal coating or change of location
- Black with yellow molded rubber
- Made of 100% recycled rubber

ClearanceGard® Clearance Bars

- Warn drivers of low clearance heights
- Available in 4.95” OD & 7.135” OD
- Available in 8 colors
- Four reflective tape bands for increased visibility
- Quick and easy installation
- Made from high density polyethylene
- Custom lettering available; sold separately
- Hardware kit sold separately

Available in: Black, Blue, Brown, Gray, Green, Light Gray, Red, White, Yellow
Reflective tape available in: Black, Blue, Green, Red, Orange, White, Yellow

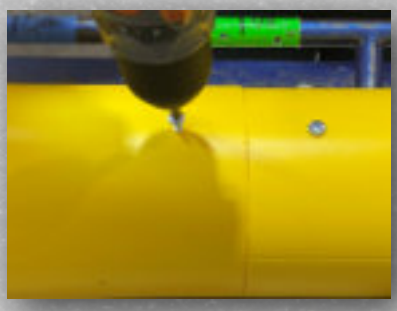

Overhead ClearanceGard clearance bars effectively warn drivers against accidental collisions in warehouses, parking garages, car washes, drive-thru locations and other low clearance applications.

STEP 1

STEP 2

Padded Column Wraps

- Available in black or yellow to suit various environments
- Features two 2” high visibility reflective bands in red or white
- Increased safety in pedestrian & vehicular areas
- Made with 10oz reinforced rip-stop nylon with ½” thick foam core
- Waterproof, fade resistant & mold/mildew proof
- Ideal for parking garages, gas stations & warehouses to protect against minor impacts & improve visibility

Available in: Black, Yellow

Padded Gate Guards

- Available in black, white or yellow
- Features two 2” high visibility reflective bands in red or white
- Made with 10oz reinforced rip-stop nylon with ½” thick foam core
- Waterproof, fade resistant & mold/mildew proof

Available in: Black, White, Yellow

Padded Bollard Covers

- Available in black or yellow
- 2” high visibility reflective band in red or white
- Fits up to 7” x 40”H diameter bollard post
- Waterproof, fade resistant & mold/mildew proof

Available in: Black, Yellow

Flexible Bollards

- BollardGard bollard cover that delineates from 360° when hit
- Eliminates replacement costs & damages to parking lot surfaces
- Steel post underneath for added strength; can be anchored to concrete, asphalt or natural ground
- Two 1” reflective bands for increased visibility
- Available with or without sign post
- Installs in minutes; mounting hardware included

Cover available in: Black, Blue, Brown, Gary, Green, Light Gray, Red, White, Yellow
Reflective tape available in: Black, Blue, Green, Red, Orange, White, Yellow

GorillaPost Flexible Bollards

- Perfect for installation where pedestrian walkways intersect vehicular roadways or emergency access points
- Temporarily folds on impact
- Safe for post-tensioned concrete floors
- Magnetic post can be temporarily removed from the ADA-compliant base
- Permanent installation available

Cover available in: Black, Blue, Brown, Gray, Green, Light Gray, Red, White, Yellow
Reflective tape available in: Black, Blue, Green, Red, Orange, White, Yellow

BollardGard® Anywhere

- Great for temporary situations where easy transport is needed
- Available in 4” or 7” bollard cover
- 25lb heavy duty rubber base for temporary applications
- Easily disassembled for transport

Cover available in: Black, Blue, Brown, Gray, Green, Light Gray, Red, White, Yellow
Reflective tape available in: Black, Blue, Green, Red, Orange, White, Yellow

Steel Pipe Bollards

- Ideal for sign posts, fence posts, dock piles, pipe pilings, bollards & other construction applications
- Manufactured from high-quality steel
- Available in 4-1/2” & 65/8” OD x 7’ long; custom sizes available
- Schedule 40, .237” wall thickness
- Primed finish, secondary steel pipe
- Pairs with 4” or 7” bollard covers

Surface Mount Steel Bollards

- Ideal for sign posts, fence posts, dock piles, pipe pilings, bollards & other construction applications
- Available in 4-1/2” & 65/8” OD x 4’ long
- 10” x 10” steel base plate with 4 holes for easy installation
- No digging or burial necessary
- Schedule 40, .237” wall thickness
- Primed finish, carbon steel
- Pairs with 4” or 7” bollard covers

U-Shaped Pipe Guard

- Significantly enhance the safety of storefronts, gas station islands and buildings from traffic collisions
- Heavy-duty steel pipe guards
- Available in 3-1/2” x 4” OD, various widths & heights
- Schedule 40 steel
- Primed finish allows for easy customization with paint for specific aesthetic or functional needs

Stainless Steel U-Shaped Pipe Guard

- Can withstand heavy impacts, making them perfect for protecting property, pedestrians & infrastructure
- 3.-1/2” OD, various widths & heights
- Grade 304 stainless steel, .214” wall thickness
- #4 brushed finish
- High resistance to weather & chemical corrosion
- Sleek, modern appearance for visual appeal in urban environments, commercial spaces & high-end properties
- Minimal maintenance & long service life
